Subject: Fw: FY2011 Annual Performance Report - Request for Input

Please provide Don with your write-up on our most significant FY2011 regional accomplishments and challenges related to the five Cross Cutting Fundamental Strategies, by noon tomorrow.. The ICI construction completion write should be a joint write reflecting the Branch's CC using ICI techniques. The San Jancinto write-up should included the Color code initiative (both removal and yard sampling).

Subject: Fw: FY 2011 Annual Performance Report - Request for Input

Hi, Everyone,

This is the e-mail that I talked about in staff meeting this morning with Steve Mouck's addition of changing the deadline such that everything is due this Friday, August 26.

----- Forwarded by Mary Kemp/R6/USEPA/US on 08/22/2011 11:26 AM -----

Subject: FY 2011 Annual Performance Report - Request for Input

Hi All - OCFO has requested input for EPA's FY 2011 Annual Performance Report. This is a major GPRA report which highlights for Congress and the public EPA's programmatic and financial accomplishments, as well as the challenges we experienced during the year. Regions are required to provide input for two sections of the report.

1. Highlights for Regional Map - We must identify 2-3 FY 2011 Regional accomplishments showcasing our most significant regional, state, tribal, or local agency efforts. We should select highlights for which performance results are not expected to change and which will remain current and topical through February 2012. OCFO will review the Regional input and make the final selection as to which accomplishment will be chosen for each Region. The accomplishment write-up should be no longer than one paragraph. As an example, last year's R6 accomplishment read as follows:

Region 6 saw improved air quality in 2010, which allowed Houston, Texas, and Baton Rouge, Louisiana—both previous severe ozone nonattainment areas—to achieve attainment with the federal 8-hour ozone standard and receive an exemption from Clean Air Act penalty fees. This progress resulted from aggressive controls in local, state, and federal clean air plans; new national air toxic and motor vehicle rules; and targeted enforcement, including federal consent decrees. Other Region 6 areas (Beaumont–Port Arthur, Texas; El Paso, Texas; and West Memphis, Arkansas) are monitoring attainment for both the 8-hour and 1-hour ozone health-based standards and have been redesignated to attainment status.

Please submit one Regional Highlight for your Organization to me no later than Monday, August 29, 2011.

2. Cross Cutting Fundamental Strategy Accomplishments and Challenges - We have been asked to identify our most significant FY 2011 regional accomplishments and challenges related to the five Cross Cutting Fundamental Strategies (XCFS). (The Region is limited to only 5 bullets) As a reminder, the Agency's five XCFS are as follows:

- Expanding the Conversation on Environmentalism
- Working for Environmental Justice and Children's Health
- Advancing Science, Research, and Technological Innovation
- Strengthening State, Tribal, and International Partnerships
- Strengthening EPA's Workforce and Capabilities

Attached is the Excel Spreadsheet I pulled together earlier this year reflecting each Division's commitments related to the XCFS. Please review this list and then provide your Division's XCFS "accomplishments and challenges" bullets to me by Friday, September 26, 2011. (Reminder, the input for this should be in bullet format and limited to concise statements.) Since we are limited to a total of 5 bullets for the entire Region, please limit your input to only your most significant "accomplishments and/or challenges."

[attachment "R6 2011 Cross Cutting Strategies Action Plans.xls" deleted by Carlos Sanchez/R6/USEPA/US]

Once I receive your organization's proposed "Regional Accomplishments" for the Regional Highlight Map and your Division's Accomplishments/Challenges bullets related to the Cross Cutting Fundamental Strategies, I will then coordinate with Larry and Al to see which items they want to submit to OCFO.

Again, please provide your input for these two items by COB Friday, September 26, 2011. Please let me know if you have any questions. Thanks for your help.

Hi all - The last paragraph of the above e-mail set a due date of September 26 for input from the Divisions. That is wrong. I need input for both the Regional Map Highlights and the Cross Cutting Fundamental Strategies by COB Monday, August 29, 2011. Sorry for the confusion.
